The Organization of the Ekrainian inti nalists mended by Stepes 6 SERA has been work-mater for some years and rolls coan furiously to destruction. The OFM, which at first in the extration distinguished itself by great emergy, dynamics and lysts action work, today fades and draws to an end. All this goes along in the presence of great internal clasters unpulsions, intrigues, columnies, voluntary residentations, and removals. Once upon a time, all the members of the organization united a their idealist statk tighth, to their idealogy, had great faith in their beliefs in the correctness of their political lines shell notes for was honest and worst initations they observed all regulations of manuplacy. Ind today? Internal byte, depressed spirits, untillingues to work, lack of party discipline, incolences everywhere and in all respects, members tall count the tragedy in the organization and in this may costac two pain in 0.1 m acres.

demands that STOTATO remove and those who are against here STOTATO does it. If SP-SEAR comercians opposes A-RMA, she threatens that etc will rever! that she carried him not from love, but because he provised to make a great "politicien" of her. Child is between camer and anvily he gives in to MUNIA. This has been taking place or a long time. LUCIA is ill accepted by all memorrs; there are even cases we as the is driven out of the most aid kicked at the unckelde. The is never waved to sit down in the office. The is called mean, a female vain, stupid, Gull and the like. The terrible at appears grows more and core. There is no stop to it. TWT also slanders BANNER before each member, saying that likely is nothing but an ordinary technician and drivery of flow is, alloyedly, a politician of a higher calibre. Chouting, she said once to ire re . L.D. Ily will dealt with the compensation to olivies, ri oner a "rou ens la trouble pouroul most that my has and receives money-others can wait. That are all of them, together with ballake, worth, if there is no closury among yours fitter suc. and similar resurts, the menters asser here "here, Julia's You are an ordinary women, uneducated, a coor, a youel." All tits was said to her face. In the beginning they epoke in a civilized an serious way, but it wid not help and did not influence her. Nebody is able to offend ... Nich.

One is to be me a great "politician", and she will attain that goal over dead odies. The ergs isatio, has little cash. lowever, the slope met prevent LTRISHO from taking LJRHA with him on trips he makes to surope, and to Canada and the USA. The embers, having learned that 'UKA' is going to take a trip to Canada and the LHA, protect, saying that there is no money and that all the memory suffer wants that in sociation to take no edge wants that EUSHA represent the organization and speak in the near of the organization. EA'. LHA could not be event LUSHA from going occases LATHAD Laintained that LUSHA threatens that she would make known publicity that are did not marry him from love and St. LUSHA agreed upon LUSHA's going but he formeds her to speak on behalf of the organization. From Caneous LUSHA wrote to MAHDEMA: "allow manna to speak occase and alreatens now..."

And nows was "the A late there" DUB the was occupied with her material affairs. The sought among the sought property to would some barcels to let and ST.T.KO, people who mould have coller collections and of other things to be sent directly to her. The continues to propagandise arainst all the OUR masters in termany and our majors a vinather and INFAD-and there are many of such. In the Wik slees, a bond them are distanding memore such as TOVCHOR; her. LINGHORS 17 TO THOS TANDERS AND TOWNS and others. On the other hand 2007A inclique herself too much with foreigners. The demonstration is too greats.

The supports I std and FIG. If I releasely says III TA (he lived in Austria and used to visit them). In the organisation FIGSEA has a reputation of a dull, studied any a swindler. Title IXA told latter in Eloty in the office of the complete at Rusks atreet, that he was the OW commendant for folded and Senerded that the latter stand at attention before him. Among the John sensors III to has a reputation of a san who is not able to fill the outy of a squad latter, and FIGA made his the ChOUN organisational officer. DETP-SOVE in An land is 1988A05 second support. He diligently informs the measure about the situation in England and strongly supports HERA and STETHOR he is one of those responsible for the current state in the organization. (He is the territorial leader in Englands)

Serious, there is blebs to GAURRYK. This poor began as he is called in the organization. The three TOWA but of the room, but today he needs STETSKO and therefore appoints him. The organization is applied ALLEBYK because he compromises SUT ("Union of Thrainian louth") and has distorted its purpose. It would be worth while to have a talk with such outstanding members of SE as VALUE TO, TOTAL, Oxfola TANO OF ALL BOWD (the last one in Polytium). I year ago STETE surdered THROTY a spain elected and of JUM because HALMERYK is, in FORT West opinion, a great practure, a strong intellegation, and besides this, an Ensterner. If necessary, JESTSED will be able to set KALMERYK analysis of UNIOTY and Tyxola STATE of in output political rivalries.

Other Luckeys of ARMA are Hr. Whitevill and Wolodyspr as his relies completely on the ", naturally on two me were, thereof .55 % A and MUDRIK. STITIO attracts then by large sums of money. However, some people think that the of officers a poort ? X'A and GUT. . not only because of money but timerily because of lack of political experience and because of plain stupidity. Ascently a division of inf more has been organised in the organization. Everyone who says mighting against BERIA, UTSTAL and TIVILLA falls down on the informers are promoted. ITURINA himself is dief of this division of informers. In Agust 1952 in Smith cafes general sessions of the ZChiew provid were held; 11/T 11 invited only faithful and exedient lackage, who e poorted him, voted for him and "predetermined" anttere. Editor Roman HARTISKY was releved from the AT', and Dr. Schdan KURDTUK from the "Arrainety Samostingk's ST:T was areinst the sugrestion of one of these present that the following outstanding and eritorious numbers of the organization be invited to the session: Roman II III'MY, 'T. Yaroslav DiYHDRA and Stepan PROCES. The history of this event was as follows: "ThT.EO, leaving for Canada, appointed W. Th'TISTY his representative in the Ally Dr. DEDNORA he names secretary and Dr. KURULIK, director of foreign policy. All of them seen realized that there was no order in the ATM. There was neither a statute nor any book of regulations, nor any protocols: there was but a hetehouteh never seen before by ambody. They started to work to clean house, to organise from the notion. Therest they published in the book of regulations that IMEN was not allowed to be an expures of THM in the good interest of the organisation. ARMA, having returned from her trip, for four hours attacked and spat at In If F., threatening him in an unheard wa, for removing her from A M. She saids "If you succeed in removing me, I shall destroy your whole life, I shall take roven; on you and your shildren for your whole life". Ind she took revenge. ILTY ZY an Let ICHOI & had to meave.

Or. DITRURA protested a few times orally and in writing spainst the improper removal of it IT Wr and Dr. Kill 1985. He wrote a big letter to ITEMED who was still in Consda, in which he described the state of affairs and advised JUNIES to get finally ric of LAWA and drive her away from the

INTEREST tried to mend everything in the organisation. To made various intelligent and arend amposals to liquidate the pigaty created by E'K A, STOPLEO and TY'S N . But all this was rejected by BURIS and TYTe ... DYNUEA was a great idealist and exemplary citisen, an experienced organiser, a great peraphetity and a sincere was. Above all, he was very disciplined. Seeing the hopeleconess of his work, his endeavors; not bulleving in an improvement in the struction, NEYTHAD put a, end to his life by a shot from a revolver on coorder 1), 1952. A great fighter for freedom, truth and justice—one of the greatest followers of Brilly—died in a tracto way. And why? Paring Bull . As stay in Canada stere were negotiations between the members of 70h0 M and the so-called opposition with regard to the liq-idation of the quarrel. Time sembers of the opposition criticised volumently GENERO for the lack of order in the organization. It. HARLE ferweatly defended STRISHO-perhaps against his own conviction-and at the same time officially and NUKEA gave scoret oral instructions to cil' members in Canada and USA to PERA and to declare that they would stop selling the AGNO'M nempeper if the gravid did not remove the . . Salud from the editerial effice of that nemapaper. LOK-TE was accused of being an opportunist. Such are STRTEO's and MERIN's marals. Zenon bl. Nort, during his stay in London, been sware of the fact that the ASM is a great irea, but that STATAK had bungled it, did note no rether did very little. We learned there that if one had already ence talked with STERS: Is that party did not want to spost to him for the second time. M'ER's contributed most to such a situations by her behavior (diplomatic of orts) she made already a good reputation for the ASM, the OFF and DESTRO. In London Bill is wanted to arrange for a meeting between STRING and a minister. Since URIA was siready known there, the porter did not west to admit her to the a mister. IN IA, taking advantage of a moment when the porter was specking to newcomers, sneaked turnuch and rem petalry. Rossver, the porter caught up with VIKIA and drove for out behind the gate. And once HUNIA come to an Assertean dignitary in Limitch and also wanted to arrange a mostine with STAT. NO. The new dignitary, baving heard about .. UEHA, did not want to receive her. But creistent MUK A found out that he had gone to the tollets and so she waited until he came out. As soon as the dignitary appeared, MINTA told him that she "is the wife of STST AGD president of the entire Unraine and president of the ARW". At Bust moment the dignitary interrepted her speechs. "Excuse me, medam, I cannot snake hands with you, because I still o'd not wash or brands after baving companded my physiological functions", and shood "cooks ye".

People write from the and the M.1 that MMM told then there, everywhere, that Jaroslav to Ink and twien the that are the greatest deceivers in the organisation; that they steal the last panay. Lamb prevented the Jam and the "opposition" from coming to an understanding her argumentation before

Did MATURIA take my messures in order to improve this situation? There was a time when 3% DERA advised STETSKO to remove MMGHA from work and from the organization because she spoiled every-Things she has no ideales no characters and wants nly to become a great "politician". Desides, 'I'R'A intrigues disherently and, as the members of the GOM may, there is only bed small around her. But STETSKO always replice: "She threatens me..." Fillis, on the other hand, visited "Mark in person and, weeping, asked him not to remove her from the organization because she was not quilty of enything and has been such since her birth. ST:TSKO spent 97,000 DY (ninety-seven thousand DH) from DUN funds in 1952 for ANN purposes. He does not want on nurpose to take a many from the representatives of other metimalities because then they will elect another All head from among themselves. The mambers see it, and their reaction against At is still unsuccessful.

Some DCM members wait or the new conference of the originally was to take place a year ago, but PRTSED postpones it constantly and holds that it will be possible to improve everything. But they deceive themselves occurse STEDED and PARTA will summen such people who will help PARTIES and PARTA to liquidate everything value is and good. Besides this, PTSTED wants very much to held the conference in England so that from Bernary only his lectors could participate in it. STETSKO's opponents think that the hencement there of NULTA, DRA AT-ENTRYD'Y, will help STETEMO to achieve his purpose.

Whi in fact is sUKTA? The mass of this great "individual" is swhemic WORTCHRE. She is a na ive of the Restern territories (we do not name the place on purpose). We are not going to write much about her suspicious past in the Roweland, but we stat the sad fact that, being the daughter of a poor passent, who, if he is still alive, does heavy work and suffers under the Bolsheviks, she here thestroys all the achievements of OUR(R) paralyses the whole movement. Such is the story of EURGA. You see, what a fine "Wusic" is played by Mrs. Yevhenia EURGA.
